What Do You Know About The Maxwell Car?

THIS is the time of the year when more people are considering the question of "what car to buy" than at any other time of the year.

This community has its full share of people who will soon be driving their first car or a new car to replace the old one.

Now, we know that we are going to sell Maxwell Cars to a great many of these people—depending upon how many we are able to acquaint with the merits of the Maxwell.

The generous value offered in the car is so evident—its past record is so full of good performance—owners speak so well of it—that when the buyer knows these things, he is eager to buy a Maxwell.

In order to tell as many people as possible about the merits of the Maxwell Car we are going to spend a lot of money in the next few weeks in this paper advertising Maxwell merits to those who do not know them.

The reason—we want to sell as many Maxwells as possible this season. Our future allotments will depend upon how many Maxwells we sell now.

You may know that the Maxwell market is a buyer's market, not a seller's market—broadly speaking. The demand for Maxwells the country over is greater than the supply.

For this reason cars are allotted to dealers by the factory according to the size of the dealer's business.

We want to make a showing and be in a position to get a generous allotment of Maxwells hereafter. Because the more Maxwells are sold in any community, the greater is the future demand. We realize the opportunity to do an ever-increasing Maxwell business.

This is only the first of the several messages we are going to print—a few days apart—concerning the Maxwell Car. But we don't expect to be able to adequately present Maxwell merits in printed words alone.

If you are one who is going to buy a new car you will find it decidedly to your advantage to find out all you can about the Maxwell before you place your order.

Come in and talk it over with us and let us demonstrate the car to you. Then, don't take our word alone, but ask those who now own Maxwells.

Get "posted" about the Maxwell and you will realize more satisfaction and get more "value received" for your motor car money than ever before.

And we are just as willing to have you investigate other cars just as fully as you do ours. The Maxwell will not suffer by the comparison.

Why not start your Maxwell investigation today?

OLATON.

May 29.—After over five weeks confinement to my bed with flux and bilious fever, I am again able to give The Herald readers a little Olaton news.

Dry weather has struck our section. Most of the farmers are through planting corn. The prospect for oats and wheat crops seems good in this community, especially oats. Gardens are fine. An extra lot of Irish potatoes have been planted and are looking fine. Fry-

ing chickens are plentiful but the price is out of reach of a poor man.

Nattie Boswell's little boy met with a painful accident yesterday by getting one of his toes cut off and a bad gash on his leg.

Mr. L. C. Crawford, Friedland, was in Olaton Saturday on business.

Mrs. Lillian Daniel, Owensboro, is visiting her parents, Mr. and Mrs. Wm. Lyons, and other relatives here.

Mr. C. D. Bean, of Louisville, is visiting friends and relatives in Olaton, Dundee and Sulphur Springs.

William Daniel and Claude Ford have gone to Illinois in search of work. This makes five young men

who have recently left Olaton in search of work and for other reasons. The recent court of inquiry held before Esq. Dean at Dundee, has put some of the law violators in and around Olaton to thinking. We hope and think the court of inquiry has had a wholesome effect on the law violators of this vicinity.

Mr. James Young is very ill of rheumatism and complications.

The Sunday School at the Methodist church was well attended Sunday.

Mrs. George B. Thomson, of Crowley, La., who with her husband had been spending the past ten days at Dawson Springs, came back Saturday to visit her parents, Mr. and Mrs. Wm. Lyons.

Mrs. Henry Stevens, who was stricken with paralysis about two weeks ago, is thought to be some better.

Several from this community, including Cortes Peyton, Carson Duncan, Wm. Ford and families, have gone to Madisonville, Ky., to work for Bond Bros. James Stinson and family will leave for Madisonville this week. He has also accepted employment by Bond Bros.
